Spalding DeDecker hires John P. Vidican, PS as Project Manager.

Rochester Hills, MI (October 31, 2016) – Spalding DeDecker (SD), a national civil engineering and surveying firm, names John P. Vidican, PS project manager. With 14 years of experience in the surveying industry and an additional five years in construction, he will help grow SD’s survey operations.

Mr. Vidican received a BS in Surveying and Engineering from Ferris State University and holds Professional Surveying licenses in Michigan and Ohio. John belongs to: American Congress on Surveying and Mapping; National Society of Professional Surveyors; American Association of Geodetic Surveyors; Cartography and Geographic Information Society; Ohio Society of Professional Surveyors; Geographic and Land Information Society; and Ohio Valley Oil and Gas Association.

Mr. Vidican’s experience includes pipeline projects, topographic and boundary surveys, construction layout, well plats, safety standards, quality control, and report documentation. John’s primary focus will be client development in the energy sector. Prior to joining Spalding DeDecker, John was project manager for Atwell, LLC in Pittsburgh, Pennsylvania.

“The continued success of Spalding DeDecker’s Survey Department, which includes projects like the M-1 Rail and the new Little Caesars Arena, has resulted in a need for us to add talent to our already strong team. I am extremely excited to add an outstanding talent like John Vidican to Spalding DeDecker. He brings a ton of experience and technical expertise, as well as great ‘client comes first’ mentality, which will help us meet current demand and grow even stronger,” said Steve Benedettini, president of Spalding DeDecker.

Established in 1954 and celebrating its 62nd year in business, Spalding DeDecker is an employee-owned consulting engineering and surveying firm specializing in infrastructure, land development, and surveying. With regional offices in Detroit and Rochester Hills, Michigan, and San Antonio, Texas, and several field offices, Spalding DeDecker offers a diverse set of skills to clients who seek solutions to construct and maintain their infrastructure. The firm offers municipal engineering, construction engineering, transportation engineering, land development, pavement management, roof and building assessment, and land surveying services.
